

**Sell your quality surplus
stock and increase
your bottom line.**

Sound good? That's only the
tip of the (iceberg) lettuce.

Good for your pocket.
Good for the planet.
Good for people.

YÜME
It's all good!

Yume is the first Australian online marketplace that facilitates the sale of surplus food and beverages. Suppliers are able to sell their surplus - excess stock, raw ingredients or by-products - to our exclusive network of food buyers in a secure and easy way.

Start selling your surplus stock today through our free and easy-to-use platform. For a successful sale, we recommend that you list your stock by the pallet and price it to clear.

HOW YUME WORKS

Suppliers

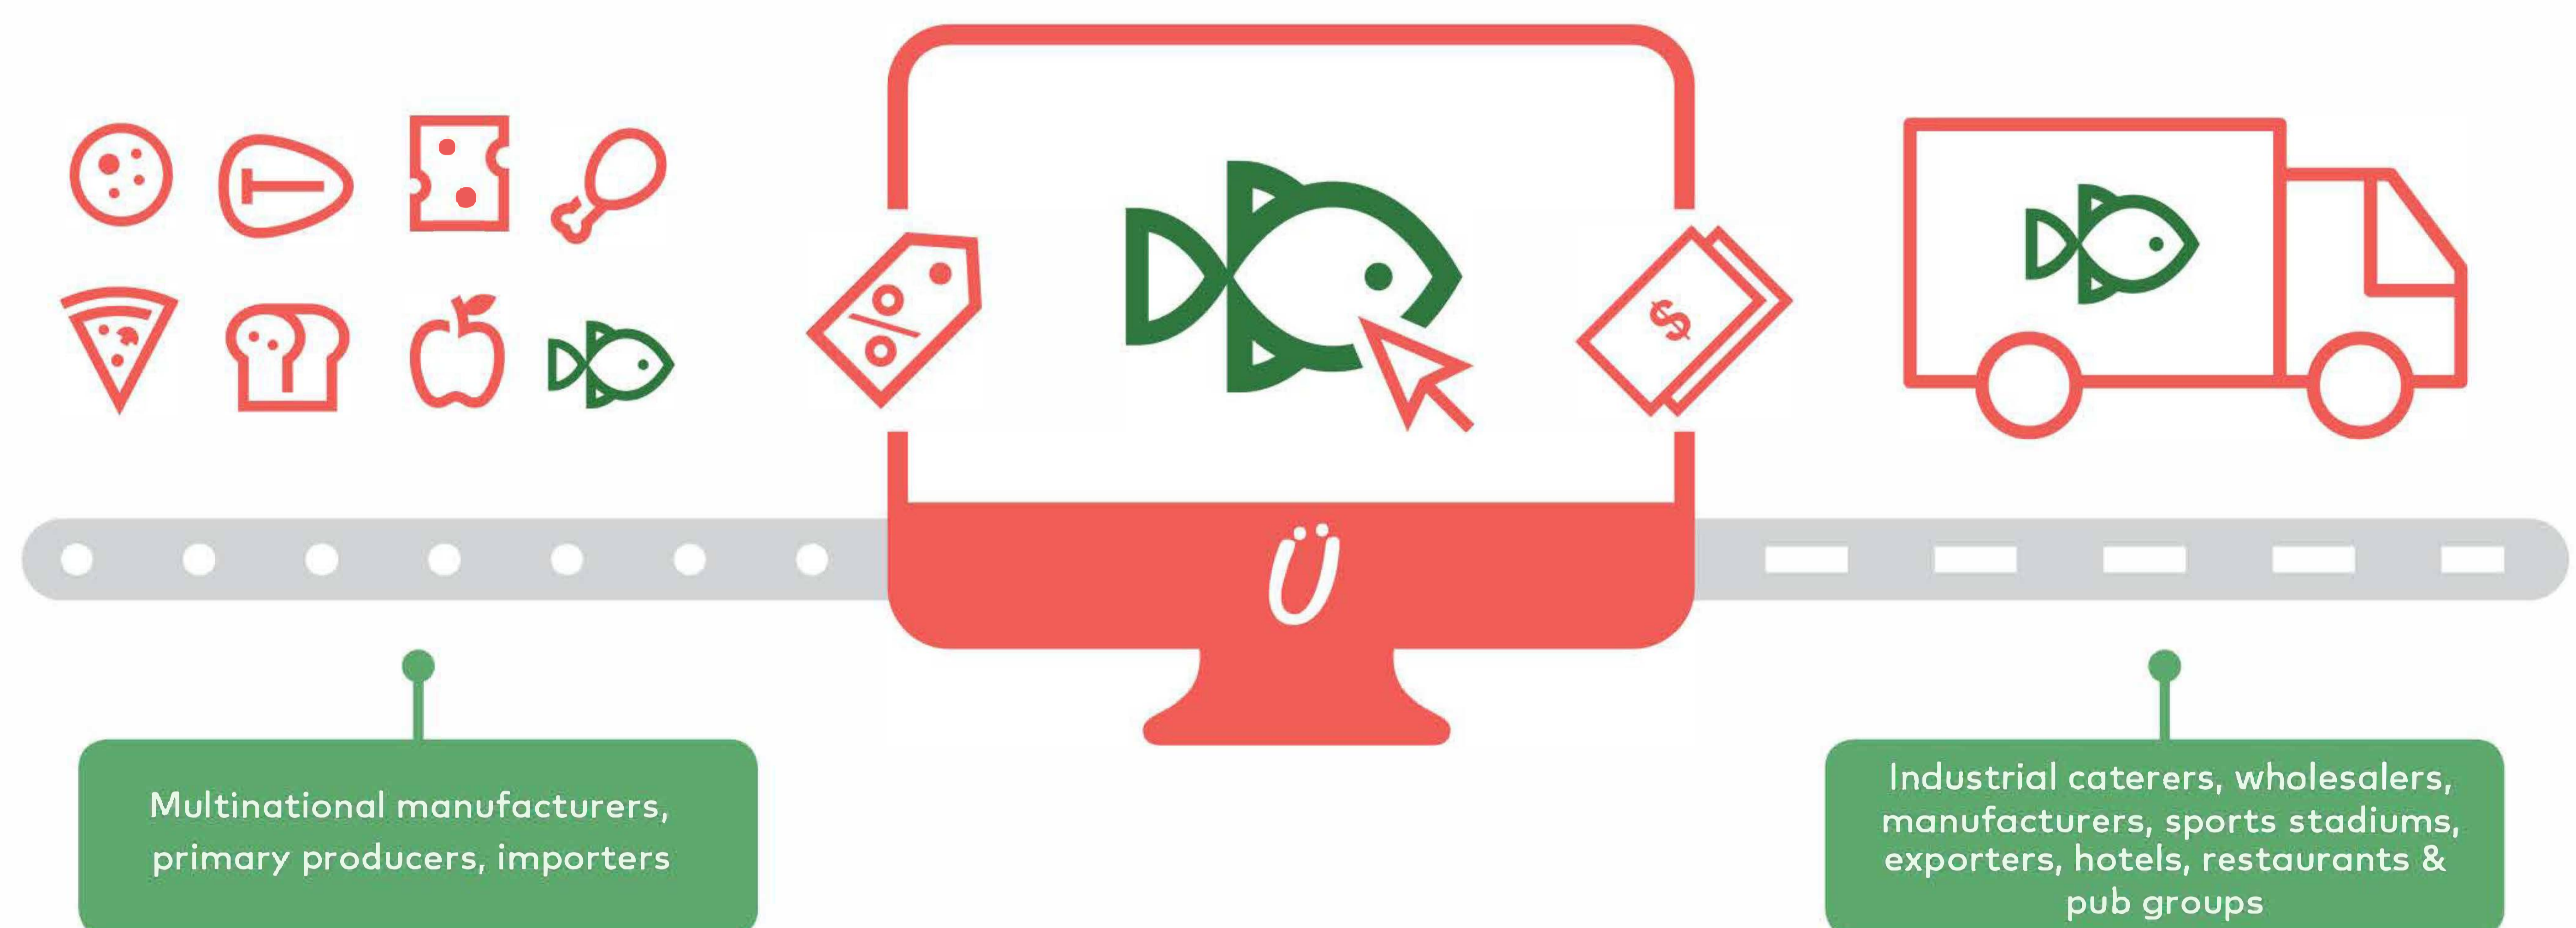

List quality surplus products on the Yume platform

Yume

Connects Suppliers to Buyers on one digital platform

Buyers

Get quality surplus products at discounted prices

WHEN CAN YUME HELP?

Imperfect goods

Out of spec, wrong labelling etc. We will find buyers who utilise your product in a non-consumer facing environment and ensure total brand protection.

Excess stock

Cancelled orders, deleted product lines, close to code. We can find buyers outside of your buying network so you don't cannibalise your own market. You can focus on selling full priced stock

Waste streams

We will help you monetize and find ongoing solutions to by-products and waste streams and increase your factory's yields while helping you meet your waste targets.

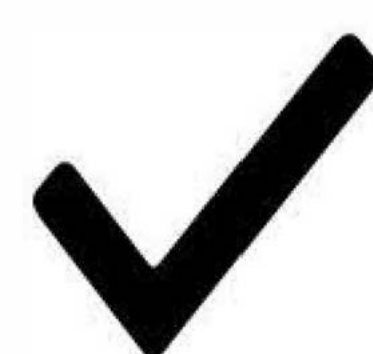

Raw ingredients

Excess ingredients no longer required in your manufacturing process. You aren't in the business of selling raw ingredients, we are!

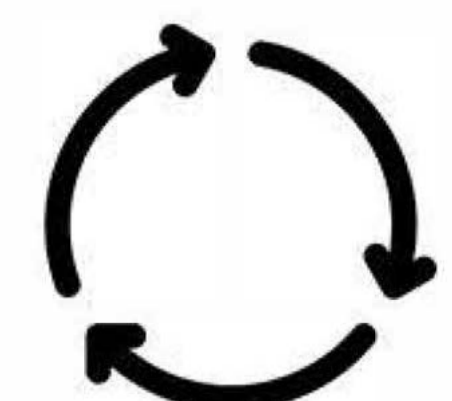

BRAND PROTECTION

List your stock anonymously. Your brand won't be revealed during negotiation.

FREE SERVICE

Yume is completely free
No up-front costs, no hidden fees.

MEASURABLE IMPACT

Receive a certificate that quantifies the environmental impact your sales have had.

\$5,500,000 returned to Aussie suppliers
3100+ registered buyers
500+ registered suppliers
